Temperature Diode Sensor Placement after March 2005 Mimir Servicing
T1-T8 = Temperature Monitor
LS 218 Sensors
TA1,2,3 = Temperature Sensors (One only is selected outside cryostat to LS331 TA = Loop A input)
TB = Temperature Controller Sensor
R1, 2, 3 = Resistor Heaters (one only is selected for LS331 Loop 1)
L2 = Resistor Heater for LS 331 Loop#2 (1 Watt)
