@ Boston University

Avid

At the **first general meeting** of
Boston University's IEEE,

George F. Matthews from Avid Technologies will be speaking about Avid's high-performance, self-healing "Unity ISIS" filesystem. Unity was specifically designed to cope with the intense high-bandwidth demands involved in broadcasting 1080p/24 television from disk to air. NBC's Heroes, the UFC, almost every news broadcast, and most play-to-air solutions used by TV networks use Unity.

THURSDAY, OCTOBER 11

7PM

PHO 203

Free Pizza, too!
