

# Introduction - Lecture 1 \*

September 4, 2012

## Grading

Homework: Homework sets (more or less weekly)

Exams: One one hour midterm, One one hour final

Extra Credit: A small amount is available to those who perform scribing functions—typing up class notes in L<sup>A</sup>T<sub>E</sub>X

## Introductory Information

A syllabus was handed out to the students. Also a PowerPoint presentation was also given detailing information on the beginnings of Boston University's School of Engineering, and control systems. Both are available on the course web site: <http://people.bu.edu/johnb/ME501.html>
