

***Recent Patents and Patent Applications of
Professor G. Jones II Research Group***

“Functionalization of Solid Surfaces with Organic Layers” Vullev, V.; Jones, G. II and Wan J., *under review*

“Panel of Reagents for Immediate Spectroscopic Detection and Classification of Unknown Biocontaminants” Jones, G. II and Landsman, P. *under review*

“Synthesis of Rocaglamide Natural Products via Photochemical Generation of Oxidopyrylium Species” Porco, J. A.; Gerard, B. and Jones, G. II. U. S. Patent No. WO2005092876 issued 10/06/2005

“Compositions and Methods for Luminescence Lifetime Comparison” Jones, G., II and Yan, D. U. S. Patent No.6402986 issued 06/11/2002
