<b>Project I</b>	Lyrical Layouts Set the text of a poem or song lyrics twice. First, set the text using the standard guidelines for type design; focus on legibility, type size, leading, spacing, and format. For the second layout, break any of the rules to express the meaning of the words.
<b>Objectives</b>	Layout 1   Demonstrate an understanding of good typography and text layout. Layout 2   Experiment with type by breaking the "rules" to express content.
<b>Format</b>	Standard Letter: 8.5" X 11"
<b>Color</b>	First layout: one color Second layout: two colors
<b>Copy</b>	10 - 20 lines of a poem or lyrics, author's name, title
<b>To start</b>	1 Select a poem or lyrics with 10-20 lines 2 For the first layout, identify a typeface that reflects the nature of the words. 3 Then, set the text following the standard guides for type design. (Review your class notes! Read Graphic Design Essentials, chapter 3.) 4 For the second layout, break all the "rules" to express the meaning of the words. (Take some chances!)
