

**Textbook of Microeconomic Theory**  
**Typos**

| Page, line                            | Present Text   | Corrected Text  |
|---------------------------------------|--|---|
| 35, 3 <sup>rd</sup> line after (2.35) | budget constraint                                      | slope of the budget constraint                          |
| 39, after equation (2.53)             | combining (2.46)                                       | combining (2.49)  |
| 45, 3                                 | Inferior good: $0 < \eta$                              | Inferior good: $0 > \eta$                               |
| 58, 9                                 | (2.105) becomes (2.109) and<br>(2.106) becomes (2.110) | (2.105) becomes (2.110) and<br>(2.106) becomes (2.111)  |
| 58, Figure 2.28                       | $B^k$  | $B^h$   |
| 77, second last line                  | Figure 2.3   | Figure 2.4  |
| 126, equation (5.3)                   | $\frac{\partial^2 q}{\partial L^2}$                    | $\frac{\partial^2 q}{\partial x_i^2}$                   |
| 149, on x-axis                        | $\frac{r\bar{K}}{a}$                                   | $\frac{\bar{K}}{a}$                                     |
| 158, line 2 after Fig. 5.28           | above the AV curve                                     | above the AC curve                                      |
| 159, Figure 5.30(b)                   | $q_a^0$  | $q_b^0$   |
| 189, equation (6.12)                  | $\frac{\epsilon_s \epsilon}{\epsilon_s - \epsilon_d}$  | $\frac{\epsilon_s \epsilon_d}{\epsilon_s - \epsilon_d}$ |
| 278, Q. 7(a)                          | income under the two<br>scenarios, wet and dry         | income if he plants wheat<br>alone or rice alone        |
| 338, last line                        | $0.05q_2$  | $0.05q^2$   |
| 355, list                             | 3. If Rob plays B, she plays R                         | 3. If Rob plays T, she plays R                          |
| 355, list                             | 4. If Rob plays B, she plays R                         | 3. If Rob plays T, she plays R                          |
| 365, line 2 after Figure 11.1         | $AC < AR$  | $AC > AR$   |
| 365, line 2 after Figure 11.1         | AC curve lies below                                    | AC curve lies above                                     |
| 415, Table 12.1, panel (a)            | MCD  | MDC   |
