To all of the PHD students + Mrs.
Brossman.

Thank you for all of your help.
I liked the activity we were doing with
the animals, because it's not something
you see everyday. My favorite part
was working on the turtle. I've
always asked people what turtles
look like outside the shell, and inside.
Now all of my questions have been
answered. Thank you for lunch also.

Dear To all of the PHD student + Ms. Brossman,
Thank you for letting us go in your college for a day. When I was in your lab, I ~~felt~~ felt apart of your Community. Also I had a lot of fun being in your class. My favorite dissection was when we could touch inside the animals. Also thank you Ms. Brossman for giving us lunch and getting the best pizza. I hope seeing you again at BU when I graduate.

Sincerely,

Erik Mendez A.N.A Spider
