

Room: Crosstown 305 unless change is announced

Time: 9:30 ~11:00 AM unless change is announced

Date	Topic	Presenter
9/11/2009	Brainstorm	Everyone
9/25/2009	Analysis of rare variants	Jeanne Latourelle
10/9/2009	Next Generation Sequence	Dan Dworkis
10/23/2009	--- Annual meeting of Human Genetics ---	
11/6/2009	--- CARE Analyst Workshop ---	
11/20/2009	Sequence Data	Shih-Jen Hwang
12/4/2009	Myths of Genetic Epidemiology Study Using Family Data	Gyungah
12/18/2009	Genetic signatures of exceptional Longevity Using Multivariate Genetic Risk Modeling	Paola Sebastiani
1/1/2010	Happy New Year!	
1/15/2010	Meta analysis with emphasis on interaction	Alisa Manning
1/29/2010	Gene summary method	Audrey Hendricks
2/12/2010	Applications of centroid estimation to statistical genetics	Luis Carvalho
2/26/2010	Cancelled	
3/12/2010	CNV analysis in Parkinson Disease: A cautionary tale	Anita DeStefano
3/26/2010	Cancelled	
4/9/2010	Algorithms for Next-Generation Sequence Mapping	Gary Benson
4/23/2010	Clustering by Genetic Ancestry	Nadia Timofeev
5/7/2010	A practical implementation and evaluation of re-clustering Illumina SNP genotypes	Mark Logue
5/21/2010	Review of methods for accounting for population structure highlighting methods for family data	Gina Peloso
6/4/2010	Analyzing multivariate phenotypes in GWAS	Qiong Yang
6/18/2010	Power gains using phenotyped but ungenotyped relatives in genetic association studies	Vivian Zhuang
