The first sentence below Eq. (23) should read as follows: " γ_2 and ξ are slowly varying with c.m. energy: For NA22 we have $(\gamma_2, \xi) \approx (0.4, 1.8)^{23}$ and for UA5 (900 GeV) we have $(\gamma_2, \xi) \approx (0.76, 2.75)^{21,22}$."

Fractal Shot Noise. STEVEN B. LOWEN and MALVIN C. TEICH [Phys. Rev. Lett. **63**, 1755 (1989)].

Reference 1 should read as follows: "S. B. Lowen and M. C. Teich, Electron. Lett. **25**, 1072 (1989)."
